Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Species of Fig. 2 and 9, Claims 1-11, 28 and 31 ;
- II. Species of Fig. 13 and 20 Claims 12-27 29, and 30;

2. This application contains claims directed to the following patentably distinct species: Group 1 and Group 2. The species are independent or distinct because the image data color correction part "calculates the correction" in Group 1 the target value calculation part "calculates the correction" in Group 2. Also the configuration of the parts has changed comparing figure 2 to 13.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
